

Gutter Race Track First Time Prep

A gravity race track that lasts for less than \$40:

Go to your local hardware or home improvement store and get the following parts:

- One plastic foldable saw horse (Harbor Freight carries inexpensive versions)
- Two vinyl gutter pieces 10 ft in length each
- Two feet of velcro
- One roll of colorful masking tape

- 1** Apply one part of the velcro to the top of the saw horse.

- 2** Cut a couple of pieces of the other velcro parts about 2.75 inches in length. Apply one piece to the bottom of each gutter about 1 inch from the gutter end as shown.

- 3** Use a piece of tape or a marker to indicate a start line inside both gutter pieces about 8 inches from the gutter top.

You are now ready to assemble your Balsa Grand Prix Race Track.
