

Gutter Race Track Super Easy Set Up

Setting up the track is as easy as....

- 1** Setting up the saw horse.

- 2** Attaching the gutter tops to the saw horse with help of the velcro.

- 3** Using masking tape to create a finish line on the ground. You can also use an existing basket ball court line or similar.

- Done!** Ready to race in less than 2 minutes!

Use a couple of large rolled up towels (not shown) behind the finish line to stop the cars.

Taking down the track is a breeze and you can store it outside!

Balsa Grand Prix Gutter Track racing is inexpensive, no hassle set up inside or outside and a lot of fun to race for the kids.
